Notes

1. Please note that the above prices are subject to change without notice
2. The above prices are inclusive of GST and after the point of sale discount given for the assignment of the solar credits (STCs) to us
3. The above prices include all installation costs for a standard single storey home
4. Double storey, cathedral roofs, flat roofs and splitting of the panels (in more than one roof) will incur extra costs
5. For 3-phase powered houses - System sizes above 3KW will require two smaller single phase inverters or one 3-phase inverter as per Western Power's requirement. Prices in such instances will be worked separately.
6. The prices are calculated based on the installation post code Zone 3 – (for eligible STCs). Please refer to <http://ret.cleanenergyregulator.gov.au/> for more details. Perth comes under Zone 3.
